Notes:

Play all chords as barre chords. Verse chords are played around the 3rd fret (for the Gm and Cm chords) and 1st fret (for the F chord). Pre-chorus chords are played around 6th (for the Bb chord), 8th fret (for the F and Cm chords), and 3rd fret again for the Gm.

These are the chords for the rhythm guitar (guitar 1), played on an acoustic guitar. You'll have to figure out the parts to guitar 2 yourself ;) Try playing triads of these chords on the G, B and E strings down near the 10th fret!
