

Don't Look Back

by Roland Albertson

Yes I see you there
I see you staring straight at me
With your lonely stare
I know just where you'd rather be

But as you walk on by
I stand and wait
But you don't look back

Now I bet you get this all the time
Ah yes you look so fine
Now I just can't get you off my mind
Ah yes you are my kind
Such pretty ladies out tonight
But you're the best in sight
Now you smile as you pass me by
But still you don't look back

Yes I feel it now
Yes I can feel that you want me
And I know somehow
That you are gonna get with me

But there's something wrong
My feet won't move and I feel stuck
So I'll sing this song
And see if it improves my luck

But as you walk on by
I stand and wait

But you don't look back

Now I bet you get this all the time

Ah yes you look so fine

Now I just can't get you off my mind

Ah yes you are my kind

Such pretty ladies out tonight

But you're the best in sight

Now you smile as you pass me by

But still you don't look back

No you don't look back

Now I bet you get this all the time

Ah yes you look so fine

Now I just can't get you off my mind

Ah yes you are my kind

Such pretty ladies out tonight

But you're the best in sight

Now you smile as you pass me by

But still you don't look back

Don't Look Back

Don't Look Back

Don't Look Back
