

You Better Believe It

by Roland Albertson

But you better believe it
But you better believe it

You think you've seen the best of me
But I'm only starting to believe
Now, really feel it
On the beat now
Like you've never seen it

And I know just what I want to be
Success just not defined by greed
How? Can't u feel it?
On my beat now
So good to see ya

And I feel it, feel it in my bones
And I know, know we're sick 'n tired

And we've seen it, seen it all before
And I know, know that now's the time

Cos we've been living in an ice age
Waiting for the fear to thaw
If we just live free
We can have it all, come now

Not talkin' 'bout the big money
We can live our dreams
They think we won't start
But you better believe it

We gonna set ourselves free
It's time to follow our dreams
They think we need the money
That we won't
But you better believe it

(repeat)

And I've always been one to dream
Follow my own destiny
Why, don't you try this
On my beat now
Yes I know you need it

And I know you're just the same as me
Too scared to set yourself free
Now, time to stand up
Feel the fear now
Don't you ever give up

And I've been, been there once before
And its all, all in your mind

And I really, really do believe
That you'll see, see if you just try

Cos we've been waiting for a nice change
Time for us to be happy
Think with our hearts and
To not give in to greed, come now

[It] won't give you everything you need
Not your happiness
They think we don't know
But you better believe it

We gonna set ourselves free
It's time to follow our dreams
They think we need the money
That we won't
But you better believe it

(repeat)

If you think that's all there is
Then why don't you stay up and find out
(But you better believe it)
If you think that's all I've got
Then you don't know how much I really care
(But you better believe it)

But you better believe it
But you better believe it
